

## Who are the real racial supremacists?

*In this Duke Report I want to share with you some excerpts my speech to EURO conference recently held in both Europe and the United States.*

It is so good to talk with so many of my loyal friends and supporters; it is an honor for me as EURO President to address both the Europe and American workshops of the European-American Unity and Rights Organization: EURO. I have a lot to tell you about the progress of our movement all over the world. It pleases me to report that I have never seen more of our people awakened than over the past year.

As you know I have been doing a lot of work in Europe. The second largest university in the nation of Ukraine recently appointed me to their faculty, and I teach upper-level courses there. The university is also publishing some of my articles and books, and it affords me the time to research and speak all over the world. We have a world-wide problem and it can only be solved on a planetary basis.

Over the past few years, I have become one of the leading commentators in the world on Mideast conflict. Because I am one of few people who dare to speak out about the Jewish supremacist power in both the media and government, I have become the most well-known anti-Sharon and anti-Israel spokesman in the United States. The government of Israel has even cited me as one of their most influential detractors.

Even Patrick Buchanan has retreated from much criticism of Sharon and Israel. Europeans are quite aware that I received more votes in Louisiana than Patrick Buchanan received in the entire USA, and they now look to me as the leading American dissident.

However, in Europe, unlike in the United States, I am not alone in my views. Many elected officials in high political positions are endorsing my positions. For instance, at a recent international conference hosted in the Ukraine, I was one of the featured speakers along with the president of the university, George Shchokin the first President of Independent Ukraine, Leonid Kravchuk, parliamentarian and poet laureate of the Ukraine, Boris Oliynyk, and Hennadyi Udovenko, Ukrainian parliamentarian and up until the recently, Secretary General of the United Nations General Assembly and currently vice-chairman of the Council of Europe. Also present were a number of ambassadors from nations across Europe and around the world.

When I became the Louisiana Republican nominee for the U.S. Senate, even the American Republican President supported the liberal Democrat, but here I have become a respected part of the European community.

As my work becomes increasingly popular, I would be quite

ignorant and oblivious not to have some fears about our ruthless Zionist opponents. Their stock and trade is character assassination, but they have also not shrunk from killing their political enemies around the world. Even in the United States, Palestinian spokesman Alex Odeh was murdered by Mossad agents.

My commitment to the truth is far more important than whatever dangers I might face. Even as regards my own personal safety, comfort, and freedom, this work is what gives my life its meaning, and I will do it as long as God gives me life and intellect. And, now that I have finished the most powerful book in the world exposing Jewish supremacism, perhaps they may fear propelling my book by creating a martyr. Obviously, I have no wish to be a martyr, but I will not retreat from defense of our people's heritage and freedom.

I know that there is a lot of political pressure for the U.S. Federal authorities to manufacture some sort of legal case against me. The harassment against me has been going on for years, but heated up almost four years ago when the U.S. Attorney's Office under the Black activist Eddie Jordan, began a comprehensive persecution and character assassination against me.

At the same time, Jordan would not prosecute Sen. Cleo Fields, a Black ally, who was caught on FBI tape taking a \$20,000 bribe from the since-convicted Louisiana Governor Edward Edwards. It

became obvious that the Federal authorities did not have a sufficient case to indict me, and years have passed. But, as my success grows around the world, there will be more pressure to do "something" to silence me.

Their problem is that I have done nothing illegal, and they must know that by dragging up such a spurious case would draw me back to Louisiana, resulting in the sale of millions of my book. They also realize that I would likely win, propelling me politically. Still, our enemies are getting desperate to silence my voice.

My well-documented, hard-hitting articles on Israeli treachery in regard to the 9-11 attacks and the Jewish supremacy over American media and government have been published in literally hundreds of newspapers and journals all over the world. The articles are appearing not only in America and Europe, but just about everywhere. In addition, thousands of websites are also publishing my writings and linking to our website: [davidduke.com](http://davidduke.com). Seven to 8 million hits are now generated each month on my own website alone, and that's not counting the translations and appearances of my work on thousands of other sites.

For example, the famous *Pravda* newspaper, one of the most popular publications in Russia and Eastern Europe, which is read all

over the world, recently translated my article on how Israeli treachery and American treason led to the 9-11 attacks. It has since become the most read and downloaded article on their web page. In Africa, my writings on these subjects have appeared in publications of European South Africans, but interestingly, also all over Black Africa. My articles appear not only in Muslim publications around the world, but also in many Hindu publications. That's interesting, because Hindus and Muslims seem to have tremendous enmity between them. The point is that my articles of simple and irrefutable truth have received a universal approval spanning every kind of political and religious thought.

As strange as it may seem to those listening, some of my writings have even been published by a few Jewish peace groups! The mainstream Jewish supremacist establishment, of course, hates me more than Yassir Arafat. That is because I use the ultimate weapon against Jewish supremacism: the truth! Someone willing to stand up and tell the whole truth makes them tremble.

In fact, the government of Israel has started an entirely new commission to combat what they call rising anti-Semitism. Of course, I am not anti-Semitic, but any critic of Israel and world-wide Jewish supremacism is labelled anti-semitic. Here are some quotes from the new Israeli government organization.

**"The Coordinating Forum for Countering Antisemitism" is the Israeli Government's official function charged with the fight against Anti-Semitism (ICCA). This new body will operate all over the world integrating into its activities governmental, academic and other elements.**

**"The new anti-Semitism has given the old anti-Semitism its "legitimacy" back, and now we are witness to the fusion of the two, The Deputy Foreign Minister provided several recent examples. In Denmark, the second highest ranking prelate in the Danish church devoted his Christmas sermon to the murder of Palestinian children in Bethlehem. In Chile there are examples of the veteran Nazis joining forces with Palestinians. In South Africa Jewish students are afraid to wear skullcaps. In the United States, since the 11th September, Holocaust deniers such as Duke have begun accusing Israel and the Jews of being behind the attacks in New York."**

Interestingly, my name is the only one mentioned by this new Israeli commission. They have so trade-marked my name with "anti-Semitism" that they just refer to me in this release as quote: "Duke". I guess I should be proud of this: it looks like this little David is making the Goliath of Jewish supremacism shake!

In the United States, both European-American and Arab-American students have reproduced my articles and distributed them by the thousands on their college campuses. In one northeast University, an Arab student association sent one of my articles to the email address of every one of the thousands of students. Jewish supremacists raged about this for weeks. Of course, they don't argue with my points, they just paint me as evil. They simply call me a White supremacist and repeat this charge relentlessly. Nowadays calling someone a racist or a White supremacist is like calling someone a heretic or blasphemer in medieval times.

It is important I address this libel and put it in the context of the real racial supremacism that threatens all the people of the world: Jewish supremacism. And it is important that we here at the EURO conference have a clear understanding of our racial vision. In this

workshop perhaps the most important thing we must understand is how to convey our message in an empowering way to our people. We must not become trapped into adopting the terms that our enemies put upon us. Racism is now defined in Webster's as hating other races and oppressing them. Is this what we are? Of course it's not!

**The first President of Independent Ukraine, Leonid Kravchuk, and Ukrainian Parliamentarian and up until the recently the Secretary General of the United Nations General Assembly and currently vice-chairman of the Council of Europe.**

We are motivated not by hatred but by deep love of our people and what we seek is the freedom and survival of our people and their higher development, even unto the stars. So when those of us accept the term "racist," we are falling into a trap that defeats us.

Another example is the term White supremacist.

First off, let me state categorically that I am not a White supremacist. They call me a supremacist so as to cover up the world's most extreme racial supremacism: Jewish supremacism.

As they besmire my name, they cover up the crimes of bloodthirsty murderers such as Ariel Sharon. Sharon has called for ethnic cleansing of the entire West Bank and Gaza, he led the murderous invasion of

Lebanon which killed thousands of civilians, men, women and children, and orchestrated the cold-blooded slaughter of 1500 Palestinian civilians in Israeli concentration camps in Beirut. He has destroyed tens of thousands of homes. He has led the recent invasion of the West Bank and caused the death or wounding of thousands. Yet members of the Jewish Press and even President Bush have recently called Sharon, "A man of peace." That's got to be one of the biggest political lies in all of history. Maybe after Sharon finishes his massive murder and destruction in Palestine or after Sharon drives all of the Palestinians out, Sharon will win the Nobel Peace Prize as did the murdering terrorist, Menachem Begin. Bush is really coming up with some real whoppers; I will never forget when he told the U.S. Congress that the WTC was attacked because the hijackers hated freedom!

We are *not* supremacists, we are European-American preservationists, we simply want for those people of European descent the same things that all people on earth want. We want to preserve our unique culture, to preserve our heritage both cultural and genetic, to be truly free and independent and not controlled by any alien or foreign power. In America, our patriotism should be more clear than perhaps in any other country, for the USA was formed in pursuit of our "independence" from a foreign power. And now we must struggle for our independence again from the Jewish supremacy that rules our nation.

We of EURO don't want to control or repress other races. As always, the Jewish supremacists accuse their enemies of what they themselves do.

As they seek supremacy over the government and media of every nation of the world, they accuse others of being *supremacists*. When they killed millions of European scholars, clerics, and aristocrats in Russia in the Jewish-Bolshevik revolution, they screamed they were victims of *anti-Semitism*. As they fire rockets into hundreds of Palestinian neighborhoods killing scores of women and children, blinding, crippling, maiming thousands, they say they are *fighting terror*. As they militarily occupy a land of 3 million and allow them no freedom, they say they are *defending democracy*! As they torture thousands in their prisons, they tell us of Palestinian inhumanity!

It reminds me of an old Polish proverb: The Jew always cries

out in pain as he strikes you!

So we here know who the real supremacists are, and we must in this workshop understand exactly what we are fighting for.

Ultimately, we are fighting for our very existence. We are fighting both to avoid the genocidal destruction of our wonderful people and for a new world view that will take us to the stars. The Jewish controlled media teaches our children sexual irresponsibility, drugs, ugliness, selfishness, weakness, deracination and dissipation of every sort. As one friend told me, we are becoming a junk society, junk music, junk food, junk literature and junk people. The souls and spirit of too many of our people have become as flabby as their bodies. Independent thinking, Courage, honesty, love and pride is now passé. But we have a new vision.

We celebrate the nobler aspects of mankind and we of EURO are determined to have a clean and wonderful society that will give our children real meaning in their lives rather than just give the momentary and debilitating indulgence of their weaknesses.

The truth is that Jewish supremacists hate European-Americans; not just European-Americans like me. They hate us as much as they hate the Palestinian people. They want to wipe us out just as much as they want to destroy the Palestinian Authority and ethnically cleanse the West Bank and Gaza. Let me quote to you from the leading Israeli commentator on the biggest website in Israel. His name is Emmanuel Winston and he openly advocates the genocide of all people of European descent.

**"As any prostitute can tell you, for a fee they will agree to do anything you want. The Europeans are really a low, immoral people who would sell their mother... and then deliver.**

**"...How easily any sense of humanity of civilization slips away from their face, leaving only the beast. This beast has many faces and names. Sometimes they are called Germans, Poles, Croatians, Ukrainians... While at other times they became the Church, the Red Cross, or Prime Ministers, Kings, Fuhrer. Then, in a quick change, we see some Americans, French, English and, finally, there is the contaminated Jew called the Leftist. It doesn't really matter, this name or that. Underneath there is strand, a bond that society teaches children to hate the "other" - the different ones...**

**"These are people of ultimate evil as the beast stays just below the surface, ready to savage, ready to kill the Jew. The planet would be well rid of the European predator. Perhaps we will be fortunate to live in such interesting times (an old Chinese curse), to see the decline and disappearance of the graveyard called Europe. The Europeans, the English and the American Arabists once again come together and crack the whip over the Jews."**

Now, again, let me repeat, this is the top web site in Israel,

supported by major Jewish political figures such as Benjamin Netanyahu. And let me tell you, Jewish supremacy in Europe and America is leading directly to European genocide. They are overwhelming us with massive Third World immigration the same way they overwhelmed the Palestinians with Jewish immigration and the same way they continue to flood into the West Bank and build more settlements.

My book, *My Awakening*, proves that Jewish supremacists led the fight to change the immigration policies of America and Europe. These are the same racial supremacists who support a "Jews Only" immigration policy for Israel. The Jewish supremacist leadership knows exactly what they are doing. They seek to undermine the solidarity, loyalty, sense of tradition and heritage of every people in the world, except the Jewish people.

Imagine for a minute, if any major person in American called Jews prostitutes and beasts and said, quote:

**"The planet would be well rid of the Jewish predator. Perhaps we will be fortunate to live in such interesting times, to see the decline and disappearance of the graveyard called the Jewish people and Israel."**

Do you think there would be an outrage? You can bet your yarmulkes that any man who would dare say such a thing would be driven from society in any European-American country. In parts of Europe he would be jailed. Jean Marie LePen was criminally prosecuted for innocuous comments about World War Two. But, is there any outrage for what Mr. Winston said? Not a peep! Not a whisper!

In my recent broadcast on Ariel Sharon, I quoted an interview where he even threatened World War III and thus the wiping out of the European people and civilization, if only one Jewish diplomat was killed. A sick, megalomaniac, mass murderer is now called the ally of America! We are told we must worry about Saddam Hussein. Nuclear weapons are in the hands of Ariel Sharon, now that should make one shudder!

After I did a recent national TV broadcast, somebody told me that he thought Israel would never do something so treacherous as not to warn us to prevent the carnage of September 11. Look at the record: Israel committed terrorism against the United States in the Lavon Affair and in the attack on the USS Liberty; they spied on America and did us great damage such as in the Pollard case. The largest spy ring in American history was recently uncovered, an Israeli spy ring which was closely monitoring all the hijackers. Five Israeli spies even lived on the very same street in Hollywood, Florida

as the leader of the hijackers. Five spies! Israel knew this terrible event was coming down.

Just four days before the attack, an Associated Press article on September 7 headlined, "Sharon Avoids Belgium for fear of War Crime Charges!" He knew that all that would go away once the 9-11 attack took place, and he also knew that Israel would then be free to commit any outrage against the Palestinians in the name of "fighting terrorism." While the WTC burned, a group of Israelis with phony credentials in New York were caught filming and celebrating the attack. They were arrested by the FBI. Even the radical Jewish leader, Benjamin Netanyahu, when asked about the attack by the *New York Times*, immediately blurted out, "It's very good!" Before self-editing himself and saying: "Well, not very good, but it will generate immediate sympathy."

I will not recount again here all the evidence of Israeli involvement in the 9-11 attack, but please look at the hard, cold facts in my well-documented articles on the subject. Sharon, Israel, and Jewish supremacists are not just a threat to the Palestinian and the Arabic peoples, they are a threat to Americans, to Russians, to British, Canadians, Germans, French: to all of us.

We should not only stand beside the Palestinians both Christian and Moslem from the standpoint of justice and freedom, we should stand beside them because it is in our interest to join them in their struggle against world-wide Jewish supremacism, the world-wide racial supremacism that threatens us all.

## **EURO June 2002 Update**

### **EURO 2002 Civil Rights Workshop**

EURO held its first civil rights workshop over the weekend of May 17-18 in New Orleans, Louisiana. This event was attended by 45 local and state organizers from across the country, who came to learn the latest organizing techniques from how to use the media as a tool to effectively organizing local chapters. After the workshop, attendees were treated to a dinner and a historical tour of the New Orleans French Quarter by the President of the John Laffite Society of Louisiana.

Speakers at the EURO 2002 New Orleans Workshop included EURO California State President Stan Hess, EURO Louisiana Representative and Jefferson Parish Republican Executive Committee member Kenny Knight, Jefferson Parish Republican Executive Committee member David Terribone and EURO National Director Vincent Breeding.

EURO plans to hold its next workshop in Richmond, Virginia, in the Fall of 2002.

### **David Duke on FOX Foxwire May 18**

EURO National President David Duke was a guest on the FOX News Network show Foxwire with Rita Cosby on May 18. Though Rita Cosby spent most of the 20 minute interview talking over the top of Mr. Duke, he was able to mention the Israeli involvement in the terrorst attack on Sept 11 and Ariel Sharon's bloody record as one of the worst war criminals

in history.

David Duke was able to mention our web site at [www.davidduke.com](http://www.davidduke.com) three times during the broadcast, resulting in almost 1 million hits to our web site between Saturday night and Tuesday morning. Many of these hits resulted in new EURO membership, book sales and many thousands of e-mails.

### **Ron Doggett on Ananda Lewis**

EURO Virginia State President Ron Doggett was a guest on the Ananda Lewis Show, a nationally syndicated CBS daytime talk show on May 29. The topic of the show was interracial dating and included Mr. Doggett and the leader of the New Black Panther Party, both of whom were opposed to interracial dating.

### **National Office Needs**

Last month we listed a number of items needed for our upcoming project creating a EURO training and recruiting video. We still need a Canon XL1 or Sony VX-2000 DV camera. This camera will allow us to create state-of-the-art video productions. We also need professional studio lights. If you have either of these cameras or would like to donate toward their purchase, please contact EURO National Director Vincent Breeding at 985-626-7714.
